INDIVIDUAL PROPERTY/DISTRICT
MARYLAND HISTORICAL TRUST
INTERNAL NR-ELIGIBILITY REVIEW FORM

1-1

Project: MD 25 over Beaverdam		Property/District Name: Bridge 3024, MD 25 over Beaverdam Survey Number: BA- 3/55
Eligibility recommended Eligibility not recommended _X_ Criteria: _A _B _X.C _D Considerations: _A _B _C _D _E _F _G _None Justification for decision: (Use continuation sheet if necessary and attach map) According to information prepared by SHA, Bridge #3024 does not meet the National Register Criteria for listing. The single span, concrete girder bridge was constructed in 1926. The outside parapets have incised panels, a common design for bridges of this type. The bridge s a common bridge type for smaller crossings and many similar structures remain in Baltimore County and Maryland. About 115 concrete girder bridges built in the state before 1932 are still in service. Maryland has been utilizing concrete bridges sonce at least 1908 and developed standard plans for concrete slab and concrete girder bridges sone thereafter. This bridge has been somewhat altered at its downstream headwalts and by the addition of metal gaurdrails. The bridge does not appear to meet Criteria C for engineering or Criteria A for transportation. In addition, it is not located in any known historic district. Bridge #3024, MD 25 over Beaverdam Run 1926 1993 - bridge replaced Documentation on the property/district is presented in: Project File Prepared by: Rita Suffness, SHA Elizabeth Hannold		Project: MD 25 over Beaverdam Creek, Baltimore County Agency: FHWA/SHA
